

# Hattelco AS

## - project info

**Project:** Hattelco AS, Arendal  
**Sector:** Wholesaler - electronics  
**Product:** Mezzanine  
**Storage of:** Cartons og pallets  
**Month / year:** 2007  
**Completed by:** Constructor Norge AS

**Hattelco**

An ever increasing need of space for an increasing assortment made it necessary to establish a new warehouse. Stringent FIFO-rules for purchased goods, demand special locations for each batch, and kept in bulk, including their special demand for floor space.

### **Solution:**

Hattelco got the maximum floor space by choosing a mezzanine, so that the floor could be utilised in two levels.

The mezzanine was delivered with hand rail, stairs and pallet gateway.

Capacities:                      Mezzanine      425 m<sup>2</sup>  
   Load capacity    700 kg pr. m<sup>2</sup>

*Mezzanine in the new warehouse, incl. stairs and pallet gateway.*
