

Netthandelen Norge AS

- project info

Project: Netthandelen Norge AS, Kristiansand
Sector: E-business
Product: P90 Racking, Narrow aisle storage system, + mesh walls
Storage of: Cartons on pallets
Month / year: 2007
Completed by: Constructor Norge AS

After an extraordinary development, Netthandelen Norge AS, had to look for new premises. The decision was a totally new building, totalling 13000 m², including 11200 m² store. Netthandelen needed efficient solutions in the store, to handle many users simultaneously.

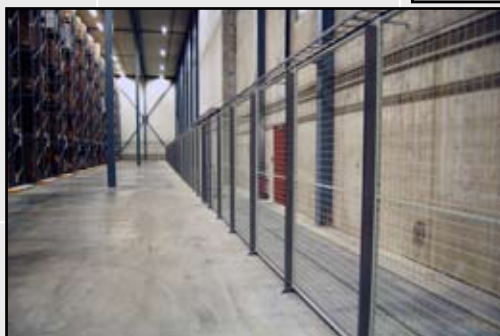

Solution:

The solution was a Narrow aisle storage system, together with P90 racking, close to all the loading docks, to achieve a rapid dispatch of the goods - in and out. To separate between the trucks and the "soft workers", there was established a turnaround for the trucks behind the racking, also secured by mesh walls.

Capacities:	Pallet places:	12366 pallets
	Length:	45,5 meters
	Height:	11 meters
	In the height:	6 pallets

↑ *Narrow aisle storage system, front and aisle.* →

← *Mesh walls separate trucks and people.*
