

Info Project

Country Court of Lille

Project : Country Court of Lille
Sector : Justice
Product : Compactus
Storage : Archive files boxes
Installation's date : January 2007
Realized by : BRUYNZEEL RANGEMENTS FRANCE

The Country Court :

Due to the growing number of file to archive, the objective of the archivist of the Country Court was to increase the capacity of storage of the closed files.

The solution:

- Compactus Shelving:
 - Capacity of storage: **3000 ml of boxes of archive files**
 - Height under the light fitting: 1957 mm
- Advantage for the client:
 - Gearing down of M3 type, technical floor of type « **Terrazo** »,
 - Depth of the shelves is 350 mm, 5 levels of installation + top panel,
 - Sliding panel at each span for consulting,
 - Speed of installation** (7 days).

Notes :

The County Court of Lille gathers in its underground stockrooms the different type of the material of fixed and mobile storage shelvings, it is used amongst other things as a **test-zone at northern France region**.

The difficulty of acces to the building located in the center of the town of Lille and the placement of the storage area at the third level of underground required a very big completely manual handling.
