**Sector :** Higher Education  
**Product :** Compactus, Sysco  
**Storage :** Library and archive files  
**Installation date :** March, 2007  
**Realized by :** BRUYNZEEL RANGEMENTS FRANCE

### The University Paris VII : the library of the University Paris VII by Denis Diderot

The University Paris 7 - Denis Diderot is the first multidisciplinary university of France. It accommodates about **26 000 students** in 3 sectors: Sciences, Letters and Arts and Medicine.

It settled today in one of the latest borned university's area of the 21<sup>st</sup> century, in the Grands Moulins's district of Paris (13 district, close to National Library of France)

The University decided to create a big central library that it had always missed. Due to its dimensions, equipment proposed and volume of collections, **this library will be one of the most important university libraries build in France these last years.**

#### The Solution:

Bruynzeel equipped 2 stock areas (1000m<sup>2</sup> and 250m<sup>2</sup>):

The client chosed many accesories : **shelves buttresses of 75mm of high and suspended book ends, descriptif for each panel and A4 card for each panel of end.**

The client wished to have a **sealing of the floor** that required a lot of work of finition.

The mobile bases make 11m length (either 11 spans of 1000mm).

The large room is equipped with 8 zones including each one 6 bases.

The small room is equipped with a zone including 11 bases.

Fixed Sysco shelving is installed along the wall and has a **length of 52m** (21m + 31m).

All together, this installation represents **10km of shelves**
