

# FJ Industries

- story from real life

FJ-INDUSTRIES

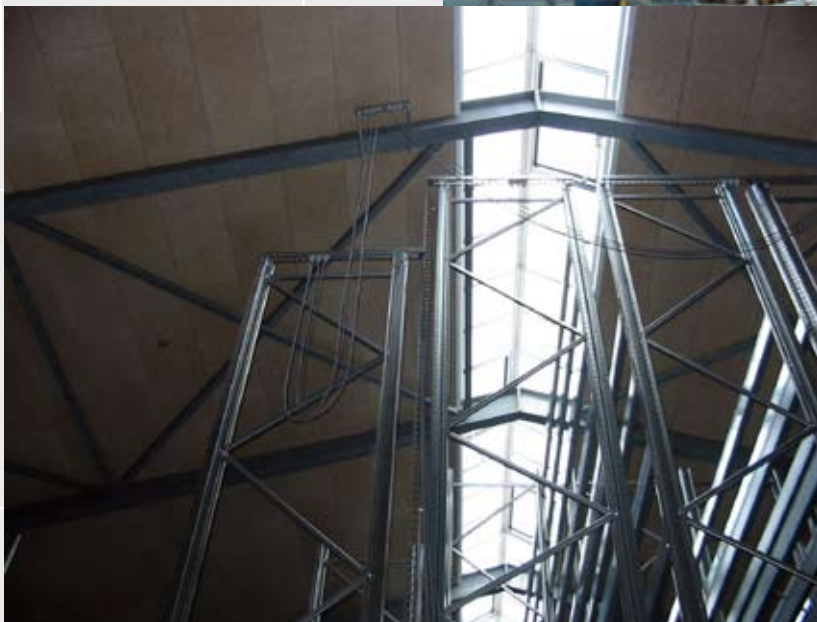

**Project:** FJ Industries A/S, Ferritslev  
**Trade:** Metal  
**Product:** MOVO (mobile pallet racking)  
**Storage of:** Pieces of iron in different sizes, stored on pallets  
**Month / Year:** August 2006  
**Delivered by:** Constructor Danmark A/S

FJ Industries was building a new warehouse and wanted the biggest possible number of pallet places.

## **Solution:**

Starting from the roof construction of the warehouse, Constructor Danmark's technicians developed a tailor-made MOVO solution with 3 different frame heights of 5,5 - 6,5 and 7,5 meters. On an area of 620 m<sup>2</sup> FJ Industries disposes of 2 688 pallet places. The system consists of 5 bases of each 29,8 meters, and each open aisle gives access to 512 pallet places. Load capacity per pair of beams is 4 000 kgs.

Cable cross pieces have been installed in order to allow thoroughfare, thus the system can be operated from both sides. The MOVO racks are operated by remote control from truck.
